Research and Innovation

Exciting things are happening at McGill's Faculty of Engineering. We host a wide range of research projects in all aspects of Engineering, Architecture and Urban Planning. Our research areas are listed on our Department and School page (https://www.mcgill.ca/engineering/departments-schools-and-institutes).

Much of our research work is interdisciplinary in nature. Some of our strategic research areas include Information and Communications Technology, Advanced Materials and Nanotechnology, Aerospace Engineering, Bioengineering, and Design for Sustainability.

Explore our research

- Research News (https://www.mcgill.ca/engineering/category/article-categories/news): Read about award winners and our achievements.
- Funding for Researchers (https://www.mcgill.ca/research/research/funding): Learn about upcoming research opportunities, as well as research grants, research contracts, and industrial research chairs (IRCs).
- Centres & Institutes (https://www.mcgill.ca/engineering/research-innovation/centres-institutes): See a list of affiliated Centres & Institutes, including their missions and contact information.
- McGill Engine Centre (https://www.mcgill.ca/engineering/research-innovation/engine): To stimulate and support technological innovation and entrepreneurship across McGill and strengthen mutually beneficial relationships between the Faculty of Engineering and companies worldwide.
- SURE (Summer Undergraduate Research in Engineering) (https://www.mcgill.ca/engineering/research-innovation/sure): SURE students work closely with a McGill Engineering professor on one of their research projects for 16 weeks in the summer.
